Introduction to Precollege Programs

Each freshman applicant accepting admission to the University of Illinois at Urbana-Champaign for fall 1981 is expected to participate in the precollege programs. The precollege programs are separated into two parts: (1) testing and general academic orientation held during the spring and (2) orientation, academic advising, and course selection for the 1981 fall term held during the summer. Students admitted for the summer term and continuing in the fall should participate in spring testing and preenrollment for fall as listed. Please be aware that there is no advance enrollment for the summer term; information on summer school registration will be mailed in early May.

If you wish to accept the offer of admission, read this brochure carefully and return the enclosed Admission Acceptance/Precollege Program Request Form. On the form, indicate whether or not you accept the offer of admission. If you accept, complete the appropriate sections to request participation in the suitable precollege programs. By return mail you will receive admission tickets for spring testing, an appointment for advance enrollment in the summer, and information about the times and locations of other appointments which you have requested. Failure to return the Admission Acceptance/Precollege Program Request Form may result in the cancellation of your offer of admission.

Participants in the spring testing and advance enrollment in the summer receive special assistance and first priority in the scheduling of fall classes. *Freshman students who fail to complete all required spring testing will be assessed a \$25.00 late fee in order to accomplish these tasks during New Student Week if they are an Illinois resident and their permit to enter is dated prior to May 1, 1981.* Students who wait until New Student Week should realize that they will have the lowest priority for enrollment in fall classes.

Testing Information

During the spring, the University administers the School-College Ability Test; placement tests in mathematics, chemistry, and foreign languages; and provides a general academic orientation to the University. Since students are placed in rhetoric courses according to their scores on the ACT English subtest (or SAT verbal) which were furnished for admission purposes, no further placement testing in rhetoric is required. The rhetoric graduation requirement is satisfied and four hours of proficiency credit for Rhetoric 105 are earned if the score is at or above 28 (ACT English) or 610 (SAT verbal) for students entering in fall 1981.

Placement tests are designed to help determine which course a student is best prepared to begin in a particular subject area. Several introductory-level courses are generally available to students in each subject area. It is to a student's advantage to enroll in a course which is neither too difficult nor too easy relative to his or her high school preparation.

A review of material in a subject not recently studied in high school is advisable prior to taking a placement test in that subject. Without such a review, the student may be placed in a lower-level course which will repeat his or her high school work. In some cases, degree credit will not be given for repeating high school work. Placement test scores are not recorded on the student's official academic record.

To participate in the Summer Orientation/Advance Enrollment Program, you must complete all available placement tests in subjects in which you plan to take course work during your freshman year. If you fail to complete these placement tests in the spring, a \$25.00 late fee will be assessed for taking them during the fall New Student Week. To determine if you are required to take a specific placement test, please read the sections that follow.

General Academic Orientation

All test participants must attend the general academic orientation which will be conducted at 11:00 a.m. on each day of spring testing. The purpose of the orientation is to:

1. Provide information and answer specific questions concerning required placement testing and optional proficiency testing.
2. Distribute *Undergraduate Programs* catalog and *Courses Catalog* with an explanation as to their use when preparing for academic advising and course selection in the summer. (For those students who are unable to test in the spring, catalogs will be distrib-

uted free only during summer campus orientation or fall New Student Week.)

3. Provide an opportunity for students to ask other questions regarding their enrollment.

General questions about campus life, housing, financial aid, and other relevant topics may be addressed by students as well as parents to a representative from the Student Affairs Division from noon to 3:00 p.m. If parents accompany students to testing, they may attend a general information meeting from 11:00 a.m. to noon sponsored by the Mothers and Dads Associations at the University of Illinois at Urbana-Champaign.

School-College Ability Test (SCAT)

All beginning freshmen are required to take the School-College Ability Test. The SCAT is designed to measure general ability in verbal and mathematical areas. Test scores are used only for counseling and advising purposes.

Mathematics Placement Tests

All incoming freshmen are required to take one of two forms of mathematics placement tests if they intend to take a mathematics course, whether as a requirement or as an elective, during the freshman year. Students who take the chemistry placement test must also take a mathematics placement test.

The first form of the test is required for students who *have not* studied trigonometry *or* who have less than 3½ years of high school mathematics. This test contains algebra and a few geometry questions. The second form of the test is required for students who *have* studied trigonometry *or* who have at least 3½ years of high school mathematics. However, all engineering majors must take this second form, regardless of their math background. This test includes half algebra and half trigonometry questions.

Students who have taken the Advanced Placement Program (APP) calculus or the CLEP mathematics test must still take a mathematics placement test. A mathematics placement test must be taken by:

All students who plan to take mathematics during their freshman year even though not majoring in a curricula listed below

All students admitted through the Educational Opportunities Program

All students admitted to the following academic programs:

College of Agriculture

All curricula

College of Applied Life Studies

Health and Safety Education curricula

Physical Education curricula

College of Commerce and Business Administration

Teacher Education Physics

Chemistry Placement Test

All incoming freshmen are required to take the chemistry placement test if (1) they have had high school chemistry *and* (2) they intend to enroll in a chemistry course, whether required or elective, in the freshman year. All students who take the chemistry placement test must also take a mathematics placement test.

Students who have taken Advanced Placement Program (APP) chemistry or any other nationally administered chemistry test should still take the chemistry placement test. A chemistry placement test must be taken by:

All students who plan to take chemistry during their freshman year even though not majoring in a curricula listed below

All students admitted to the following academic programs:

College of Agriculture

All curricula

College of Applied Life Studies

Health and Safety Education

College of Engineering

All curricula

Chemical Engineering	Physics
Chemistry	Physiology
Ecology and Ethology	Speech and Hearing Science
Entomology	Teacher Education Biology
Genetics and Development	Teacher Education Chemistry
Geology	Teacher Education Earth Science
	Teacher Education Physics

Foreign Language Placement Tests

To help you determine whether or not you should take a foreign language placement test, be aware that the following academic programs require fulfillment of a foreign language requirement for graduation: College of Liberal Arts and Sciences (all curricula), College of Engineering (combined engineering-liberal arts five-year program), College of Fine and Applied Arts (History of Art, History of Music — French or German; Music Composition — French, German, or Italian; Voice — French, German, or Italian).

French, German, Latin, or Spanish: All students with *three or more years* of high school study in French, German, Latin, or Spanish must take the placement test in that language if they intend to study the language at the University. Students with *one or two years* of high school study in these languages may elect to take a placement test if they intend to study the same language at the University. Those who do not take the placement test will be enrolled in the first course (101 level) by their advisers if they choose to study that same language. Because each college has a different policy regarding the awarding of degree credit for elementary foreign language courses, students should consult with their college representative at the orientation meeting on the day of testing to find out the policy of their college. For example, engineering students will not be given degree credit for a 101-level language course if they have studied that same language at least two years in high school. Students who are uncertain about whether they should take a foreign language placement test should review their high school work as though they would definitely take the test. All students who wish to be placed above the 101 level must take a placement test.

Russian or Modern Hebrew: All students who wish to enroll in Russian or Modern Hebrew courses must take a placement test if they studied either of these languages in high school.

No course credit will be awarded on the basis of a foreign language placement test score except in Modern Hebrew. In all other languages, students who score particularly high on the placement test will be encouraged to take a departmental proficiency test.

A foreign language placement test must be taken by: Students who have studied a language in high school and who intend to study that language at the University as described in the paragraphs above.

Spring Testing Dates and Locations

Select two alternative dates from the five testing Saturdays listed below and enter these dates on the Pre-college Program Request Form (Item 1-A). Please check your high school athletic and music events calendar before selecting your test dates since *requests for changes will probably not be possible*. If you plan to participate in the IHSA Organizational Band Contest, you should not select the April 11 test date in Chicago. Be aware that the Class AA Illinois High School State Basketball Tournament, March 20-22, may present problems in securing overnight accommodations for tests scheduled on that weekend. If you wish to test on the same day as a friend, please send your request forms in together. Each testing date has a limited number of available spaces which are granted on a first come, first served basis. The Chicago dates normally fill early.

Date	Location
March 21	Urbana
April 4	Urbana
April 11	Chicago
May 2	Urbana
May 9	Chicago

No unannounced test date will be scheduled.

Overnight Accommodations

If you are taking your tests in Urbana and wish to come to campus the preceding night, limited overnight accommodations will be available in a University residence hall at the rate of \$7.25 per person, plus tax. You will be housed in a room with an undergraduate student. No space is available to accommodate parents. To request a reservation, please complete the Request for Overnight Accommodations (Item 2-A) on the Precollege Program Request Form. Please note that all room reservations will be confirmed by the Conference Housing Office prior to your arrival on campus. Payment will be due when checking into the room assigned

to you. Questions concerning housing at testing may be answered by calling the Conference Housing Office, (217) 333-1766, between 8:00 a.m. and 5:00 p.m. Monday through Friday.

There are no residence hall accommodations at the Chicago test site.

Testing Schedule

The order in which examinations are administered will be the same on each of the five Saturdays.

8:00 o.m.	All students report to test center
8:15-9:45 a.m.	School-College Ability Test (SCAT)
9:45-10:45 o.m.	Mathematics placement test
11:00-12:00	General academic orientation
12:00-1:00 p.m.	Lunch
1:00-2:15 p.m.	Chemistry placement test
2:30-3:45* p.m.	Foreign language placement test

* Modern Hebrew placement test will continue until 4:30 p.m.

Counseling and Test Results

Soon after you complete the required testing, you will receive a copy of your test results with a brief explanation of their meaning. A more detailed statement concerning tests and other aspects of college work can be found in the *Self-Counseling Manual*, published annually by the Psychological and Counseling Center. The procedure and cost for obtaining this manual will be described in your test score report.

At this time, students will have the option of requesting to meet individually with a trained professional counselor at the Psychological and Counseling Center to discuss test results, career choices, reading and study methods, personal problems, or general adjustment to the University. There is no charge for this service.

Optional Testing for Proficiency Credit

A brief discussion of the proficiency examinations utilized by the University of Illinois at Urbana-Champaign and not offered during spring testing follows. More complete information on proficiency examinations is given in the brochure *Placement and Proficiency Examinations 1980-82* which is available at any college office.

Departmental Proficiency Examinations

Departmental proficiency examinations are offered in most University courses generally open to freshmen and sophomores and in some higher-level courses. Proficiency

examinations are usually given without charge. As a rule, these exams should be arranged individually through the department involved. Major exceptions are the biology, mathematics, and chemistry departmental proficiency examinations which are scheduled during New Student Week, or soon after, for administration to large groups.

Advanced Placement Program (APP)

Many high schools participate in the College Board's Advanced Placement Program by offering college-level courses in certain subject areas. A national examination is administered in May and the tests are scored by Educational Testing Service (ETS). Official reports of scores earned on these examinations should be sent by ETS to the Coordinator of Placement and Proficiency Testing at the University of Illinois for evaluation. A detailed description of the examinations for which credit may be awarded can be found in the 1979-81 *Undergraduate Programs* catalog, which is available in most Illinois high school counseling offices.

College Level Examination Program (CLEP)

Students may satisfy all or part of the general education requirements of their colleges through successful performance on certain CLEP General Examinations. These examinations are made available by the College Board through the various national testing centers of Educational Testing Service. Testing fees are \$22 for the first test and \$18 for each additional test taken on the same date.

The University of Illinois at Urbana-Champaign will award credit on the basis of scores from three of the five CLEP General Examinations: humanities, social science and history, and natural sciences (subtest scores in biological and physical science). Acceptance of CLEP credit is dependent upon the student's college of enrollment; depending on the score, usually 3 or 6 credit hours will be granted. Some colleges may waive the corresponding general education requirement if a score is sufficiently high. The policies of each college for each exam are shown in the following chart. This information reflects policies at the time this booklet was published and are subject to change.

Students who wish to have their CLEP General Examination scores evaluated should request Educational Testing Service to send an official score transcript to the Measurement and Research Division, 307 Engineering Hall, University of Illinois at Urbana-Champaign, Urbana, Illinois 61801.

Note: CLEP General Examinations will not be available as part of the spring Precollege Testing Program.

CLEP Credit and Waiver Policies by College

College	CLEP General Examination			
	Soc. Sci.	Humanities	Biol. Sci.	Phys. Sci.
Agriculture	C	C	NC	NC
	W	W	NW	NW
Applied Life Studies	C	C	NC	NC
	WP	W	NW	NW
Aviation*	C	C	C	C
	WP	WP	WP	WP
Commerce	NC	NC	C	C
	NW	NW	W	W
Education	C	C	C	C
	W	W	W	W
Engineering	C	C	C	NC
	W	W	NR	NW
Fine and Applied Arts	C	C	C	C
	WP	WP	WP	WP
Liberal Arts and Sciences	C	C	NC	NC
	W	W	W	W

* The policy governing students in aviation is dependent upon the college to which the student transfers to enter a degree program.

C = College may grant up to 6 hours credit toward a degree

NC = College will not grant credit toward a degree

W = College may waive a portion or all of the student's general education requirements in the subject area

NW = College may not waive any portion of the student's general education requirements in the subject area

WP = College may possibly waive a portion or all of the student's general education requirements in the subject area depending on his or her curriculum

NR = There is no general education requirement in this subject for students in this college

Duplication of Credit

The proficiency examinations described above provide a mechanism through which students can demonstrate knowledge and skills acquired outside the university classroom and receive credit or advanced placement for university-level work done in an accelerated high school program or in a program of independent study. These examinations cannot be used to obtain additional credit for work that has already been recognized by the award of university-level credit at the University of Illinois or elsewhere. The following general rules have been implemented to ensure that *credit is not awarded more than once for the same work*.

Proficiency credit will *not* be awarded in any course if:

1. The student has already taken and received, or subsequently takes and receives, credit for an equivalent course at any college or university.
2. The student has already received credit for the course, or an equivalent course, through some other examination program.

Any student who is uncertain about how the rules mentioned here apply to a particular case should consult his or her college office.

Summer Orientation/ Advance Enrollment

Only those students who have completed required testing, or are not required to take any examinations other than the School-College Ability Test, may participate in the Summer Orientation/Advance Enrollment Program. Students will meet with college representatives and academic advisers and select classes for the fall semester. The program will introduce students to the academic and social climate of the University and the resources available to them as UIUC students.

The Summer Orientation/Advance Enrollment Program is an all day program. Tours of the campus, meetings with various department representatives, and many other activities will be conducted throughout the day. *You will receive a detailed schedule of events in the spring.*

Orientation/College Meetings

The first *required* meeting for all students attending Summer Orientation/Advance Enrollment will begin at 10:00 a.m. This meeting is a general information and orientation meeting. At 11:00 a.m., students will meet with representatives from the colleges they are entering. (*Exception:* The Institute of Aviation meets with its students at 1:00 p.m. at Willard Airport.) College representatives will provide information concerning University, college, and departmental degree requirements and prepare students for their academic advising appointments. *Attendance is required.*

Academic Advising

All students have afternoon appointments with academic advisers between 1:00 and 5:00 p.m. You will be notified of the exact appointment time when you receive notification of the date that you will be attending Summer Orientation/Advance Enrollment. The ad-

viser will have a summary of each student's test scores and high school transcript and will be familiar with the requirements for a degree in the student's chosen program of study. An adviser will assist you with making course selections for the fall semester. Before the school term begins, an officially approved schedule will be mailed to each student in mid-August.

Requesting Participation

To request participation in this summer program, consult the chart on pages 14 and 15, select a date when your college is conducting activities, and complete Item 1-B on the Precollege Program Request Form.

Many new students participate in Summer Orientation/Advance Enrollment, so it is necessary to limit the number of participants for each day. For this reason, select and indicate two alternate advising dates from different weeks and different days of the week. If your three choices for an advising date are filled, you will be scheduled for a date that is open.

Participating in Summer Orientation/Advance Enrollment at an earlier date in the summer creates no advantage in course scheduling, since the processing of all course requests occurs after summer preenrollment is completed.

When choosing a date, it is recommended that you carefully check to make sure the dates you select will not interfere with final examinations, graduation, or any other personal plans. *Requests for changes will not be honored for students who are assigned to one of their three choices of advising dates.*

Overnight Accommodations

If you and your parents wish to come to the Urbana-Champaign campus the night before your Summer Orientation/Advance Enrollment date, there are many facilities from which to choose, including local hotels and motels, as well as accommodations at the Florida Avenue Residence Halls. The rate at the residence halls is \$10.00 per person, plus tax. Payment will be due when you check into the room. Parents can be accommodated for Summer Orientation/Advance Enrollment. To request reservations, please complete Item 2B on the Precollege Program Request Form. Reservations will be made for only the night *preceding* the student's Summer Orientation/Advance Enrollment date. Longer stays are possible, but they have to be cleared through the Conference Housing Office. The Conference Housing Office will confirm your reservation to hold a room for you. Questions about reservations may be made by calling the Conference Housing Office, (217) 333-1766.

Summer Orientation/ Advance Enrollment Dates

All activities take place on the Urbana-Champaign campus.

Educational Opportunities Program (E.O.P.) Orientation

All new freshmen who have been admitted to the University under the auspices of the E.O.P. are required to participate in: (1) the spring testing program, (2) the E.O.P. orientation day, and (3) the Summer Orientation/Advance Enrollment Program. Participation in the E.O.P. orientation day and Summer Orientation/Advance Enrollment Program is contingent upon completion of spring testing. The E.O.P. orientation day and Summer Orientation/Advance Enrollment Program will be scheduled for two consecutive days on the Urbana-Champaign campus.

All E.O.P. students must complete Items 1-A and 1-B on the Precollege Program Request Form. It is recommended that all students admitted to the E.O.P. program take the mathematics placement test even if not required by the college and curriculum to which the student has been admitted. Since the E.O.P. orientation day precedes Summer Orientation/Advance Enrollment, students must select a Tuesday through Friday date. When the scheduling office receives the completed request form, you will be sent specific information regarding your appointments for testing, advance enrollment, and orientation. Questions concerning the E.O.P. orientation program should be directed to the Educational Opportunities Program, University of Illinois at Urbana-Champaign, 130 Student Services Building, Urbana, Illinois 61801, telephone (217) 333-0054.

Parents are invited to attend the Parents Program; however, please be aware that no formal activities are planned for the first day of the two-day program.

University Bands Audition

Since students who wish to play in one of the University Bands must be auditioned and accepted before they complete their class schedules, *they must complete Item 3 on the Precollege Program Request Form. No band auditions are scheduled on Saturdays.* Students interested in auditioning should select a non-Saturday Summer Orientation/Advance Enrollment date. The University Bands Office will contact each student who requests an

audition regarding audition requirements. Note that this is a band audition only. Orchestra and jazz band auditions are described below. Further information may be secured by writing to the University Bands Office, University of Illinois at Urbana-Champaign, 140 Harding Band Building, Champaign, Illinois 61820, telephone (217) 333-3025.

Choral Audition

All students interested in organized singing at the University may audition for placement in one of the choral groups during the afternoon they are on campus for academic advising. *No choral auditions are scheduled on Saturdays.* Students interested in auditioning should select a non-Saturday Summer Orientation/Advance Enrollment date. Those wishing to advance audition must so indicate on Item 4 of the Precollege Program Request Form. Auditioning students will be asked to sing a simple melody and to take brief tests to determine basic tonal and rhythmic ability. Details concerning choral activities may be obtained from the Choral Office, University of Illinois at Urbana-Champaign, 4-129 Krannert Center for the Performing Arts, Urbana, Illinois 61801, telephone (217) 333-3206.

Orchestra Audition

The School of Music maintains two orchestras: The University of Illinois Symphony Orchestra and the Illini Symphony. Membership in both groups is open to students from any college of the University by audition. Auditions for the orchestras are held during registration week and the first week of classes in the fall semester. Students who play an orchestral instrument are encouraged to complete Section 5 of the Precollege Program Request Form so that detailed information concerning orchestral audition requirements may be sent to them. Students who qualify for orchestra may add the course within the first two weeks of classes in the fall. For additional information, write to Orchestras, School of Music, University of Illinois at Urbana-Champaign, Urbana, Illinois 61801, or call (217) 333-2620.

Jazz Bands Audition

The School of Music has six jazz bands. Membership in these bands is competitive and open to all students of the University. Students who have had experience playing jazz or who would like the opportunity to play in a jazz band should complete Section 5 of the Precollege Program Request Form. Information about jazz band auditions will be sent. Auditions will be held during the

first week of classes in the fall. Students accepted for membership in one of the jazz bands will be allowed to enroll for credit during the first two weeks of the semester. Questions may be directed to Jazz Bands, School of Music, University of Illinois at Urbana-Champaign, Urbana, Illinois 61801, telephone (217) 333-2620.

Parents Program

Parents are invited to accompany students to the campus during Summer Orientation/Advance Enrollment and to participate in the information meetings sponsored by the Mothers and Dads Associations at the University of Illinois at Urbana-Champaign. During the morning session, parents will have an opportunity to meet with campus administrators, faculty, and students, and to discuss areas of concern to parents with them. Parents planning to attend this program should complete Item 6 on the Precollege Request Form. Parents who are unsure of their plans are welcome to attend the program without prior registration. A schedule of daily activities available to parents and students will be mailed to new students in the spring.

An announcement of New Student Week activities, which takes place the week before fall classes begin, will be mailed to all new students in the latter part of July. If you have questions concerning the precollege programs for beginning freshmen, please contact:

Precollege Programs Coordinator
University of Illinois at Urbana-Champaign
Office of Admissions and Records
10 Administration Building
Urbana, Illinois 61801
Telephone (217) 333-6427

Admission Acceptance/Precollege Program Request Form

This form is to be completed in accordance with information presented in the *Precollege Programs for Beginning Freshmen* (fall 1981) brochure. Fill out completely each section of the request form which corresponds to the precollege programs in which you wish to participate and return in the envelope provided.

ADMISSION ACCEPTANCE

Please indicate below whether or not you intend to accept this offer of admission. If you are not able to inform us of your decision at this time, ensure that such a decision is made prior to May 1, 1981 (or within two weeks of receipt if received after April 17, 1981), or this offer of admission may be withdrawn.
